- Test project start

**(Level9) - Berlin, 08.08.2011** - The CMS partner solution from the Level9 GmbH offer for internet-, marketing-, PR-, promotional- and communication agencies real mensural surplus values. The own agency know-how would completed at timely web know-how for customer projects and can used as whitelabel-solution. Professional Content Management with the Level9 CMS and a reliable technology- and 24/7 service partner are the corner pillar on these exactly on the needs from agencies aligned solutions.

### Partner concept

The first maxim of the CMS partner solution is: The customer of the agency remains the customer of the agency - durable. The Level9 Content Management System is a special CMS partner solution for agencies, which is oriented, the business processes of an agency ideal to support. The concept approach is likewise easy then effective – the agency carries on the creative chief business and offers also his customers within the own portfolio the technical assembly from web projects with the in the background available Level9 web know-how, the available CMS and the technical service and support. So can both partner bunch their main competences – the agency for the area design, Level9 for the area technical.

### Facilities for agencies

Agencies make creative designs or marketing-strategies, head the customer communication and offer together with the CMS partner solution their customers a perfect website, with timely functionality from a matured and flexible Content Management Systems. All liberties on the design are available the agency. Individual wishes from the agency customers can also converted professional and reliable.

If it is at grown agencies the discontent at adherence to schedules and permanent availability of freelancers or to hold out the company risk own staff for technical implementations. With the Level9 CMS you obtained as partner scalable and fixed calculable related with a 24/7 hours support.

With the Level9 CMS partner solution can agencies a optimal total solution for the internet-needs of their customers offer and expand their competence as contractor, without the risk of additional fixed costs. And all above the own label. [www.level9cms.de](http://www.level9cms.de)
